Thank you!

Dear Friend,

Thank you for your gift to Doctors Without Borders. Your support allows us to remain independent, impartial, and neutral, ensuring that our teams can reach people in need without restriction and provide aid directly. Our work relies on kind individuals like you.

Your donation was put into action right away to support our response to emergencies in more than 70 countries, like:

- **Earthquakes in Afghanistan:** Following the 6.3 magnitude earthquake on October 7 and a 6.3 magnitude aftershock on October 11, our teams have treated over 540 wounded patients at MSF-supported Herat Regional Hospital and donated mass casualty kits to treat up to 400 additional wounded people.
- **Triple Crisis in Madagascar:** Extreme weather from climate change is ruining crops and causing unprecedented food insecurity. To treat those impacted by the crisis, our teams are expanding our work to treat severely malnourished children who are also at greater risk of malaria.
- **Maternal Mortality in Haiti:** Haiti has the Western Hemisphere's highest maternal mortality rate. Our teams restored access to maternal health care in rural Sud department by rebuilding and upgrading a clinic destroyed in 2021's earthquake. In the improved new clinic, 347 deliveries took place in the first four months of this year.

This lifesaving work—delivered in some of the most challenging circumstances—would simply not be possible without you. Your ongoing support is saving lives. Thank you!

With gratitude,

Avril Benoît
Executive Director
Doctors Without Borders USA
